1. Claims 21-29 are allowable over the prior art of record.
2. It is noted that in the Response of 23 October 2006 Applicant has argued against the rejection of claims 30-38 under 35 USC 112, second paragraph, by stating that the "guideline entitled '2106 Patentable Subject Matter- Computer-Related Inventions'" indicates that claims are proper when reciting a computer-implemented method if the method steps are claimed, "in conjunction with a physical structure, such as a computer memory."

In response to Applicant's arguments, the rejection of 20 July 2006 puts at issue that independent claim 30 as presently drafted fails to make clear and definite if the recited "computer-readable medium" (line 1) is claimed along with the computer-implemented method steps set forth in the body of the claim. It is noted that the "computer-readable medium" is recited in the preamble of claim 30, but the computer-implemented method steps of claim 30 are set forth in the body of claim 30. This presentation of the one in the preamble and the other in the body of claim 30 calls into question if the medium and the computer-implemented method steps are both claimed clearly and definitely. If the claim is rewritten to make clear that a computer program product is being claimed and to recite the medium and the computer-implemented method steps both in the body of claim 30, then claim 30 would overcome the rejection of record under 35 USC 112, second paragraph.

The remarks of Applicant in the Response of 23 October 2006 are not considered persuasive for the reasons set forth above, so the rejection of record of

Art Unit: 3662

claims 30-38 under 35 USC 112, second paragraph, as set forth in the Office Action of 20 July 2006 is hereby maintained as set forth in that Office Action.

3. Claim 30 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. Claims 31-38 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
